

Intra Activity Term 1

How many baskets can your team shoot in 2 minutes?

WALT: We are working together as a team to shoot as many baskets in the given time.

WILF: All to join in with the activities.

To encourage each other to do well, have an opportunity to take the lead in the team.

Intra Activity this term links with the curriculum activity basketball. Which team can shoot the most baskets in two minutes, then sudden death, you miss your out, who will be the last one in? The activity gives pupils a chance to encourage their team show support and respect for each other, develop core skills and participate in a competitive activity in a non-threatening environment. The activity was modified to suit the needs of the various classes. The second target was aiming for cones placed on the floor, which team could roll a ball towards the cones, hit them one at a time beating the other team to do so.

Aiming for a target is not always the easiest of things to do. The classes worked well together and were to come up with good ideas of how to improve their scores.

Post 16 IO and HA students had an opportunity to show their leadership skills, helping with younger pupils, getting equipment out and giving instructions. It was also lovely to see all the staff join in with their classes.

IMPACT: Collaborative activities form bonds between staff and pupils and help develop a greater sense of cohesion which can benefit all aspects of school life.
