lost. The group felt like badges would be easily lost due to their size.		November.
Ollie and Chris suggested having something else to make them stand		
out as school councillors so that other pupils knew who was on the		
committee. Jumpers that were another colour were suggested and the		
group loved the sound of this as they were easier to keep safe and		
would make them more recognisable to others.		

MINUTES OF MEETING CONTINUED

We discussed highlighting what school equipment may need replacing. Chris asked if we could look into getting new basketball hoops as the ones we currently have in the hall are broken. Chris said he is happy to include this in his email to Mark. The ramp in Frome class was brought to our attention as it is "shakey and planks are missing" the group felt this could become unsafe in the future. The group discussed chairs in the classrooms. It appears most classrooms have a selection of different sized chairs which are not suitable for the learners in the classrooms as some pupils end up with smaller chairs which are not good for their backs. An idea could be for teachers to put all chairs in the hall at the end of term and sort them out into size order, they can then be redistributed to classrooms to ensure pupils consistently have the right sized chair. Lastly meeting times were discussed. Big thanks to Miss Mitchell for arranging a new system to ensure that all council members get to meetings on time. The group felt that 15minutes was not long enough voted for 30minutes over 15minutes to ensure we have enough time. Chris to include this in his email Mr Senior. November. School Council to compose an email to wednesday 29 th November. Wednesday 15 th November. Holly to add this to the maintenance log. November. Wednesday 12 th November.
